MEMORANDUM FOR: Juan Jose

1. Attached is a sterile version of suggestions for specific operational plan for [] It is hoped that the above suggestions may be of some use to you in briefing the subject RRO.

2. At present it appears that message centers will be established at Adam (2), Frank, Hank, Cesar, Bond and Goss, a total of 7 in all. However, it should be planned that, should nets fail to be developed in all of the above locations, the RRO will serve as a listening post at the very least and should be so briefed.

3. For your latest information, there are 8 experienced bodies at Singer of which three are ready to mount today and five no later than 25 May. The remainder, four in number, will have to be trained up to the last possible minute. Ricardo says that one more experienced RO is due out of target, so with luck we may have a complete lineup.
